List of Contents

NUMBER 1

H. A. Khan and **A. A. Qureshi**	1	Solid State Nuclear Track Detection: a useful geological/geophysical tool
C. Papastefanou	39	Alpha radionuclides in ground-level air at a height of 20 m
K. N. Yu, Z. J. Guan, M. J. Stokes and **E. C. M. Young**	45	Natural and artificial radionuclides in seabed sediments of Hong Kong
Vinay M. Choubey, Rakesh C. Ramola and **Kewal K. Sharma**	49	Soil gas and indoor radon studies in Doon Valley, India
P. J. Jojo, A. Rawat and **Rajendra Prasad**	55	Enhancement of trace uranium in fly ash
S. V. Bodwadkar and **J. C. Reis**	61	Porosity measurements of core samples using gamma-ray attenuation
Ewa Krynicka	79	Correlation between thermal neutron absorption and time decay constant in bounded sample-moderator system
N. R. Das, Susanta Lahiri, D. Basu, T. K. Baidya and **K. L. Chakraborty**	85	Nuclear techniques to study the noble metals in the chromite–sulphide association of Nausahi, Orissa, India
A. M. Hassan, N. El-Enany, Z. El-Tanahy and **M. A. Abdulmomen**	91	Multi-element measurements of various industrial samples by neutron capture prompt gamma-ray activation analysis
J. M. Ayala, M. A. Buergo and **J. Xiberta**	99	The use of energy dispersive x-ray fluorescence (EDXRF) as an approximate method of analysing ash and sulphur content in the coals of the Asturias, Spain
J. M. F. Dos Santos and **C. A. N. Conde**	103	Application of gas proportional scintillation counters to the analysis of sulfur in coal
Announcement	i	

NUMBER 2

A. E. Abbott, I. Lerche and **G. R. Baum**	107	Signal processing methods in stable isotope chronostratigraphy: applications to St. Stephen's Quarry and Bay Minette, AL
J. C. Lofts, P. K. Harvey and **M. A. Lovell**	135	A stochastic approach to mineral modelling of log derived elemental data
C. J. Koizumi, J. R. Brodeur, R. K. Price, J. E. Meisner and **D. C. Stromswold**	149	High-resolution gamma-ray spectrometry logging for contamination assessment
Joseph R Hearst and **Richard C. Carlson**	165	A comparison of the moisture gauge and the neutron log in air-filled holes
J. C. Reis	173	Fluid injection rates into subsurface formations using radioactive tracers

Baljinder Singh and **H. S. Virk** 185 Investigation of radon-222 in soil-gas as an earthquake precursor

Zhang Ye and **Ge Liangquan** 195 Determination of the ore grade of tunnel walls by *in situ* x-ray fluorescence analysis

NUMBER 3

Motoji Ikeya 201 ESR (EPR) dating based on natural radiation effects

G. J. Roach, J. S. Watt, H. W. Zastawny, P. E. Hartley and **W. K. Ellis** 225 Multiphase flowmeter for oil, water and gas in pipelines based on gamma-ray transmission techniques

D. E. Peplow, R. P. Gardner and **K. Verghese** 243 Sodium iodide detector response functions using simplified Monte Carlo simulation and principal components

Jan A. Czubek 261 Neutron tool calibration by a scaling procedure

S. M. Akselrod and **L. A. Putkaradze** 281 Determination of current and residual oil saturation in old oilfields

M. Al-Hilal and **M. Mouty** 291 Radon monitoring for earthquake prediction on Al-Ghab fault of Syria

Alberto Malanca, Valerio Pessina and **Giuseppe Dallara** 301 Radon availability from the ground of the Brazilian state of Rio Grande do Norte

E. Navarro and **C. Roldán** 307 Natural radionuclides in beach sands from the Valencian Community (Spain)

Technical Note
R. C. Ramola 311 Radon diffusion through mica track filters

Announcement
N. P. Kocherov and **J. S. Schweitzer** 313 IAEA Handbook on Nuclear Data for Borehole Logging and Mineral Analysis

NUMBER 4

Jan A. Czubek 317 Dead time of dual detector tools

Gary L. Mathis 327 A theoretical model for the temperature response of compensated thermal neutron tools

Pekka Viitanen 335 Combined use of radioactive and inactive tracers in a borehole experiment

M. Borsaru and **C. Ceravolo** 343 A low activity spectrometric gamma–gamma borehole logging tool for the coal industry

T. M. Krishnamoorthy and **R. N. Nair** 351 Groundwater models for safety analysis of low level radioactive waste repositories

M. E. Montero-Cabrera, E. Herrera-Peraza, N. Rodriguez-Martinez, R. Segura-Soto, L. Betancourt-Tanda, R. Campa-Menendez, O. Diaz-Rizo, B. Hernandez-Lopez and **S. Valdes-Lopez** 361 Multi-elemental characterization of volcanic and vulcano-sedimentary rocks from Pina petroleum ore, central Cuba

F. Cannizzaro, G. Greco, M. Raneli, M. C. Spitale and E. Tomarchio — 373 Determination of radionuclide concentrations in the air of Palermo from the Chernobyl accident to December 1992

J. P. Patel and M. J. Mangala — 389 Elemental analysis of carbonatite samples from Mrima Hill, Kenya, by energy dispersive x-ray fluorescence (EDXRF)

Pin-Chieh Hsu, Pao-Shan Weng, Hsiang-En Wang and Po-Wen Tseng — 395 Relation between radiation exposure rates and geologic ages for the neogene formations in Taiwan

K. N. Yu — 403 Measurement of radon concentrations in soil in Hong Kong by RaA counting

NUMBER 5

Susan L. Herron, Joseph M. Chiaramonte and Michael M. Herron — 411 Effect of modifying element mineral transforms on geochemical log interpretation

Ewa Krynicka — 433 Statistical analysis of a correlation method for thermal neutron absorption cross-section determination

Edward R. Landa, Lorin R. Stieff, Mark S. Germani, Allan B. Tanner and John R. Evans — 443 Intense alpha-particle emitting crystallites in uranium mill wastes

K. F. Sprenke, W. C. Rember, M. C. von Braun and T. W. Erdman — 455 Concentration of ^{137}Cs in lacustrine sediments of Mud Lake, Idaho, U.S.A.

J. M. Travassos and A. C. B. Pires — 461 The screening effect of a tropical forest on airborne gamma-ray spectrometry

A.-M. Jepsen, R. O. Thomsen, F. G. Christiansen, F. Surlyk and I. Lerche — 473 On the use of equivalent vitrinite reflectance from the Lower Palaeozoic of North Greenland to estimate erosion event parameters

J. P. Bolivar, R. García-Tenorio and M. García-León — 485 A generalized transmission method for gamma-efficiency determinations in soil samples

S. Szegedi, N. El Khayati, I. Szalóki and A. Reggoug — 493 Determination of uranium in rock samples by natural gamma-ray spectrometry

T. V. Ramachandran and M. C. Subba Ramu — 499 Variation of equilibrium factor F between radon and its short-lived decay products in an indoor atmosphere

Technical Note
M. C. Alvarez Alvarez and M. T. Dopico Vivero — 505 Equipment for the measurement of natural-gamma radiation for the analysis of ash content and the content of particular chemical elements in coal

NUMBER 6

Gary L. Mathis — 507 Diffusion theory and the bed boundary response of thermal neutron logging tools

Edward Chruściel, Nguyen Dinh Chau and Jerzy W. Niewodniczański — 521 Coal ash parameters by neutron activation

I. F. Gonçalves, J. Salgado, J. Neves and F. G. Carvalho — 527 Calibration and design optimization of a nuclear surface moisture-density gauge by Monte Carlo simulation

A. Ioannidou and C. Papastefanou — 539 Atmospheric beryllium-7 concentrations and sun spots

Said I. Rabie	545	Distribution and interpretation of radioelements, Wadi Dib area, north Eastern Desert, Egypt
Jatinder Kumar, Rajeev Malhotra, Jaspal Singh and **Surinder Singh**	573	Radon measurements in dwellings in radioactive areas in Himachal Pradesh, India, using LR-115 plastic track detectors
Jaspal Singh, Lakhwant Singh and **Surinder Singh**	577	Estimation of dissolved uranium and radon concentrations in some natural water systems of Himachal Pradesh, India
S. Djeffal, M. Allab, D. E. Cherouati, M. T. Challal and **K. Morsli**	583	Further investigations on radon emanation along seismic faults in northern Algeria
K. N. Yu	593	Radon concentrations in water in reservoirs and streams in Hong Kong
K. N. Yu	597	The concentrations of uranium-238 in soil in Hong Kong
